

ANALYSIS

DESCRIPTION

This course is designed for users who already have a basic knowledge of Prokon and who want to perform analysis on steel and concrete structures. The type of work that the users who attend this course would typically want to do is to model and analyse structures and thereafter use the results to design specific structural members. This course gives users a useful understanding of the workflow using Prokon.

TRAINING COURSEWARE

Up-to-date courseware compiled by Prokon Software Consultants.
