- Facilities department manager
- House or interior designer
- Landscape designer/builder

### TARGET INDUSTRIES

- Architecture
- Engineering
- Construction
- Electric and Gas Utilities
- Telecommunications
- Building Services

### Business benefits

- **Bridge the gap between the office and the field:** By accessing and working with the latest drawings from the home office right at the job site, field staff can be more productive and eliminate the extra work cycles that come from communicating back-and-forth with colleagues.
- **Accelerate project timelines:** Drawing updates are easily accessible in AutoCAD or AutoCAD LT®, eliminating the typical delays caused by manual transfer from paper or another software application to AutoCAD.
- **Safeguard drawings and data:** Users can access drawings from the included free Autodesk cloud storage account or from cloud storage accounts like Google Drive, Dropbox, and OneDrive.
- **Improve team collaboration:** Specification updates, comments, and images can be shared in real time, avoiding mistakes and do-overs. Users can also work offline and sync their changes later.
- **Go paperless for efficiency and cost savings:** There's no need to carry printed drawings to job sites and client visits. AutoCAD mobile users can easily view and edit DWG files on their mobile devices and even create new drawings on the fly.
- **Work productively with special mobile tools:** Use the Smart Pen tool, a keypad for measurements and other features designed to help you easily do CAD work on a tablet or smartphone.

### Top features

- Create new CAD drawings or edit and add markups to existing drawings directly from your mobile device.
- View the most recent set of plans while visiting a job site or a client.
- Access advanced layer management, measuring, and annotation tools.
- Connect to external cloud storage services, including Google Drive, Dropbox, and OneDrive, to access drawings.
- Use GPS to sync your location with points on your drawing.
- Work offline and then sync changes once you're back online.
- Plot designs to PDF and share via email.
- Create CAD shapes by sketching freehand with the Smart Pen, which can operate in both automatic shape recognition and free sketching modes.

## LEARNING AND SUPPORT

Both the Premium and Ultimate plans include:

- A wealth of helpful video tutorials for making the most of the app.
- Tips and help via email, forums, the AutoCAD mobile app YouTube tutorials, and an online resource center.

## Special features for iPad

- **iPad Pro compatibility:** Experience incredible GPU performance and a stunning Retina Display when you use AutoCAD mobile app on iPad Pro, which also offers a new keyboard for accurate drawing, fast measuring, and trimming.
- **Use Apple Pencil:** Access tools faster and work more productively when using the pressure-sensitive Apple Pencil with your iPad Pro.
- **Split your screen:** Work on drawings while also taking notes, viewing images, and accessing other files thanks to support for split-screen mode on iPads.

## SUPPORTED DEVICES

- iPhone, iPad, iPad Pro, and iPod touch running iOS 9.0 or later
- Android devices running 4.0.3 or later
- Windows 10 supported devices

## Ongoing app updates

The AutoCAD mobile app subscribers have access to new features and updates as soon as they're released, so they always have the latest features and functionality.

## Version comparison: Premium and Ultimate

The app is available in two versions, Premium and Ultimate, which offer the same feature sets but different storage capacities and file size limits.

	Premium	Ultimate
<b>Pricing</b>	\$50 per year \$100 for 2 years \$150 for 3 years	\$100 per year \$200 for 2 years \$300 for 3 years
<b>Storage</b>	25GB	100GB
<b>Maximum file size</b>	30MB	40MB

## TrustedDWG technology

Users can preserve their documentation files with the most accurate and reliable DWG format. The AutoCAD mobile app uses TrustedDWG™ technology to store, share, and retain the integrity of customers' design data.
